Activities organized

1. We observed the **Punyathithi of Swami Vivekananda** on 4th July 2021. On this day, Swami Vivekananda became one with God, while in a state of meditation after living his day like any other and teaching his followers and discussing the teachings with Vedic Scholars went to his room in the Ramakrishna Math, the monastery he built in honour of his Guru to meditate and breathe his last. His followers believed the cause of death to be the rupture of a blood vessel in his brain that happens when one attains nirvana, the highest form of spiritual enlightenment when the 7th chakra that is the crown chakra which is located on the head opens and then gains Maha samadhi while meditating. The time of his death was 9:20 pm. He was cremated on a sandalwood funeral pyre on the banks of the Ganga opposite his guru.
