

## COMMITMENT TOWARDS COMMUNITY

We, at Vivek, believe that our students should achieve academic excellence coupled with ability for contribution to Indian society. We try to mould minds of the students through training and guidance during their years with us. This mission has kept us socially vibrant to remain responsive to the social needs.

We try to generate the spirit of social commitment train our students through organization of the events such as blood donation camp resulting in collection of remarkable number of blood units, Health Awareness Programmes for Stem Cell Donation, Disaster Management Training, Thalassemia Detection Camp, Health check-up, Anaemia Test for Girl students and female staff, eye check-up, etc.

As a forward step, we work through extensions into the social domain through the activities such as impart of education to the children of socially deprived community at Bhagat Singh Nagar in association with the “prayas” organisation, support to the children of “Punarvas”, a school of specially challenged children in making diyas, files, folders, rakhis etc., visit to the” Desire Society”, an orphanage for HIV affected children to help the children in their studies and also to boost their morale.

The Women’s Development Cell of the college conducted an activity where 13 students along with teacher’s in-charge visited a tribal school in Kaman, Vasai and donated English and Marathi grammar books in July 2019.

For inculcation of discipline and for betterment of social health environment, our students participate in programmes organized under Swachh Bharat Abhiyan, Tree Plantation, traffic control drive for Ganapati Idol Immersion Processions, road safety programmes arranged by Traffic Police Regional Transport Office, Aids awareness Programmes, Pulse Polio Vaccination of Municipal Corporation of Greater Mumbai.

Our sincere efforts so far have made us able to contribute for relief during natural calamities `also. When Kolhapur was devastated due to flood in the monsoon of 2019, a relief drive was organised where volunteers invited donations of cash and daily requirements from various people and college staff. The donation was collected and sent to Kolhapur. In the year 2019-20, when the whole world was engulfed in the woes of the Covid-19 pandemic, our NSS volunteers distributed 110 kits containing daily necessities to Adivasi families in Nandore village in April, 2020.

Drawing inspiration from the honest efforts and dedication prevailing in our Institution, our students too have taken up social work as their mission.

In the situation of increasing consumerism and self-centered attitude, we have been able to develop a sensitive and responsible youth force having social commitments making us all time prepared to rise to the occasion as challenged by the circumstances so as to contribute for social national cause.
